

## Weather

As in most coastal cities warm and fresh monsoon climate dominates in Vladivostok. The average temperature in August is + 22–25 C°, in January minus 12–13 C°.

The best time to visit Vladivostok is from the middle of May to the middle of October. We have Sunny weather with a fresh sea breeze which allows to avoid the heat.

The first months of the summer usually characterized by stable warm weather and by the start of the swimming season. Thanks to original relief of Vladivostok it is possible to see the seashore practically from any point of the city.

Winter months is the coldest time traditionally (December, January and February).

As for the temperature by month. You can take a table of temperatures by month from the sites:
